

# Dear Teacher,

CITGO is proud to demonstrate an ongoing commitment to education through its comprehensive, long-running Fueling Education program.

This year, the Fueling Education program is bigger than ever as we send renowned, Emmy-award-winning STEM educator Steve Spangler to three lucky schools for a staff-wide STEM workshop. We will also send nine teachers to Colorado to attend Steve Spangler's "Science in the Rockies" workshop and give away more than \$110,000 in free school supplies! Additionally, we are putting essential science resources, like this kit, into the hands of more than 20,000 teachers.

To get you started on fueling imagination through science, technology, math and engineering in your early education classroom, we've put together this list of comprehensive STEM Imagination Lab resources that will inspire young innovators. To learn more about the difference CITGO is making in local communities, go to **FuelingGood.com**.

Sincerely,

## Common Core State Standards for Grades K-2

All of the resources have been reviewed by licensed teachers and meet multiple CCSS standards for grades K-2, including:

CCSS.ELA-Literacy.RI.1.4

Ask and answer questions to help determine or clarify the meaning of words and phrases in a text.

CCSS.ELA-Literacy.RI.1.5

Know and use various text features (e.g., headings, tables of contents, glossaries, electronic menus, icons) to locate key facts or information in a text.

CCSS.ELA-Literacy.RI.1.7

Use the illustrations and details in a text to describe its key ideas.

CCSS.Math.Content.1MD.C4

Organize, represent and interpret data with up to three categories; ask and answer questions about the total number of data points, how many in each category, and how many more or less are in one category than in another.
