

# Challenge Checklist

- Review the Four Key Topic Areas!**
  - Safety and Well-Being
  - Quality Education
  - Sustainable Cities and Communities
  - Life on LandLearn more at: [www.FuelingEducation.com/student-challenge/challenge-topics](http://www.FuelingEducation.com/student-challenge/challenge-topics)
  
- Determine a problem** in your home, school, community and/or global population that aligns with one of the Four Key Topic Areas.
  
- Develop a UNIQUE and ORIGINAL solution** to your problem, individually or with your team. Don't forget to utilize our challenge resources at: [www.FuelingEducation.com/student-challenge/challenge-resources](http://www.FuelingEducation.com/student-challenge/challenge-resources)
  
- Record a 1–2 minute video** that describes the problem; the key topic area it aligns to; your solution, how you came up with it; and how your solution will help positively impact your home, school, community, and/or global population.
  
- Create a YouTube Account** (with parental help and permission) and upload your video with the title, "CITGO Fueling Education Student Challenge — [Video Title]" and publish to YouTube for a public audience (you may disable comments).
  
- Copy the YouTube URL** and paste it into your challenge application on [www.FuelingEducation.com](http://www.FuelingEducation.com)
  
- Submit your Application!** All students submitting for the challenge must receive parental consent and download and upload the Parental Consent Waiver in order to submit their application. All applications are due by **March 22, 2021**.
